During the course of each school year, an enormous amount of pictures are taken, if possible, please send in one roll of 24 exp. 35 mm film, I would be very grateful.

Items to save and send in during the school year include: large grocery bags with handles, large coffee cans, empty toilet paper rolls and empty paper towel rolls. These items are used for various projects throughout the school year.

Each child should bring in a snack item (cookies, crackers, pretzels, goldfish, or whatever you'd like) with enough for each person in your class during the first week of classes and then as needed during the school year. (By the first week of school we will know the total number of students in each class.)

Thank you,
